Honoured Society: SFHG

6-9 NOVEMBER 2017
PARIS, PALAIS DES CONGRÈS

www.sofcot-congres.fr
Dear colleagues and friends,

This year, 2017, features a change in the administration of our Society, with the appointment of Franck Fitoussi as General Secretary and a new and representative two-person presidency: a private-sector surgeon at the head of CNP-SoFCOT and an academic for the AOT. Two topics are offered for your reflection: obligations, and pragmatism. No doubt the professional obligations to which we are subject, whatever our type of work, are numerous, demanding, complex and sometimes not far from absurd; however, there is no escaping them in our system of officially controlled medicine with its tight administrative regulations. Thus, our professional bodies need to be aware of the obligations that the administration and its agencies can to one degree or another enforce on us: there is always room for negotiation, and the obligations can be adapted to our reality on the ground, modified or indeed combated if need be – but with solid, structured, well thought-out and scientifically irreproachable arguments. An attitude that is not systematically rejectionist can bear fruit: the Administration is sometimes prepared to listen to coherent counter-proposals and take them into account. This is what professional pragmatism means: a response to our governing entities that is adapted to the “real life” of French orthopedic surgeons.

Our organization needs to present its two faces – professional and scientific – in parallel and in osmosis. The scientific role is mainly played by the Academy of Orthopedics. By getting actively involved, each of us, from junior surgeon in training to senior practitioner, should make his or her time, knowledge and experience available and become and/or feel an academic. The scientific year will culminate in our traditional national event: the November Congress, which will take place from Monday 6th (Orthorisq Continuing Professional Development day and instructional courses) to Thursday 9th, with Quebec as our Guest Province. During the preceding months, however, we have many essential scientific invitations: elearning sessions now enhance our means of personal development and should find their place in our schedules; likewise, the meetings of our various partners and associated societies, reflecting all the facets of our specialty; and, of course, the work of coordination with our many administrative bodies (the ANSM, HAS, DGOS, etc.), specialist scientific societies brought together under the Friends of Science in Medicine (FSM), our trade unions (SNITEM, AFIDEO), paramedical organizations, etc. Orthopedic surgeons should be present everywhere: an empty-chair policy is the worst possible, especially in this troubled period of reform of the training structures for our future colleagues and possible fundamental changes to our health system in this year of the Presidential election.

These are the roles entrusted to the CNP-SoFCOT, a well-structured and fully legitimate professional lobby, representative of the profession as a whole: the quest for consensus is the only effective means of resisting, existing and growing. Unity without uniformity will reinforce the voice of our National Professional Council, giving it maximal efficacy to represent and defend our profession as orthopedic and traumatologic surgeons of whatever type. It’s up to us!

We wish you an excellent 2017, for the service of our patients, with all possible personal and professional fulfillment.

Christian DELAUNAY
President
CNP SOFCOT

Paul BONNEVIALLE
President Académie of Orthopedics and Traumatology
CONGRESS OF THE FRENCH SOCIETY OF Orthopedic Surgery and Traumatology

> CONTINUING PROFESSIONAL DEVELOPMENT DAY
Grand Amphithéâtre / Palais des Congrès de Paris

08:00 Opening of reception

ORTHORISQ
Physician accreditation
Reserved to Orthorisq members
Registration mandatory
Free for paid-up Orthorisq members
• Mandatory training for accreditation
• Annual training day in risk management in orthopedic and traumatologic surgery
**Monday, November 6**

**Afternoon**

**Congress of the French Society of Orthopedic Surgery and Traumatology**

**14:00-18:15**  Instructional courses

**General Topics**
- Designing a study in osteo-articular traumatology, Dominique Rouleau (Québec, Canada)
- CT scanning in soft-tissue tumor of the locomotor system, Alexandre Rochwerger (Marseille)
- Joint implants infected with Propioni Batérium Acnes, Philippe Boisrenoult (Versailles)
- Orthopedics-Traumatology and Geriatrics – Optimization of perioperative management, Philippe Merloz (Grenoble)

**Adult Orthopedics**
- Thoracic discal hernia, Charles Court (Paris)
- Quality of life after TKA, François Canovas (Montpellier)
- Role of anterolateral plasty in ACL reconstruction, Christian Lutz (Strasbourg)
- Treatment strategy in isolated hallux valgus, Barbara Legre-Piclet (Marseille)

**Adult Traumatology**
- Thoracolumbar hinge malunion, Christian Mazel (Paris)
- Treatment of aseptic tibial shaft non-union without PSO, Mohamed Tall (Ouagadougou, Burkina Faso)
- Indications and technical principles of first-line arthroplasty in knee fracture, Sébastien Parratte (Marseille)
- Temporary internal fixation of limbs and pelvis, Sylvain Rigal (Clamart)

**Pediatrics**
- Neuromuscular diseases, Pierre Mary (Paris)
- Osteochondritis dissecans of the knee, Franck Accadbled (Toulouse)
- Legg Perthes Calve disease, Julien Leroux (Rouen)
- Monteggia fracture, Marion Delport (Montpellier)

**Surgical Techniques**
- Hip osteoma resection, Philippe Denormandie (Paris)
- Exposing the glenoid in shoulder arthroplasty, Laurent Nove-Josserand (Lyon)
- Update on meniscal repair techniques, Philippe Beaufils (Versailles)
- Surgical repositioning in congenital dislocation of the hip, Christophe Glorion (Paris)

---

**Tuesday, November 7**

**Morning**

**Congress of the French Society of Orthopedic Surgery and Traumatology**

**07:00**  Opening of reception

**08:00-12:30**  Presentations

**08:00-10:00**  Franco-canadian round table: Conservative hip surgery in adults and children, Olivier May, Paul Beaulé

**08:00-12:30**  Presentations and round table by the Cercle Nicolas Andry

Frédéric Dubrana (Brest), Alain-Charles Masquelet (Paris)

**08:30-10:00**  Symposium: Treatment of peripheral and spinal metastases, Paul Bonneville (Toulouse), Frédéric Sailhan (Paris)

**08:30-10:00**  Case discussion: Foot and ankle and pediatrics

**08:30-10:00**  Round table biomechanics

**08:30-10:00**  CJO session (College of Young Orthopedic Surgeons): Should we let interns operate? Jean-Claude Amèisen (Professor of Immunology and Director of the Centre d’Etudes du Vivant of the Institut des Humanités, Paris), Robert Turcotte (Québec), Henry Coudane (Nancy)

**10:30-12:00**  EFORT forum: Short stems in primary THA: are they safe and effective? Stéphane Boisgard (Clermont-Ferrand, France), Luigi Zagra (Italy)

Speakers: Stéphane Boisgard, Philippe Massin, Moussa Hamadouche, Martin Lavigne (Canada), Luigi Zagra (Italy), Michael Morlock (Germany)

**10:30-12:00**  Case discussion: Hand, wrist, shoulder, elbow and knee

**10:30-12:00**  CJO, CFCOT and SoFCOT: DESC diploma graduates

**10:30-12:00**  SOFROT specialty society (French Society of Orthopedic and Traumatologic Research)

**12:15-14:00**  Orthorisq general assembly

**13:00-14:00**  CFCOT general assembly

**12:30-14:00**  MACSF SYMPOSIUM (Room 136/137M)

**12:30-1:15pm**  Forensic traps in Traumatology: how to prevent?  Speakers: Nicolas Chanzy, MD – MACSF adviser Thierry Houselstein, MD, MACSF Medical Director

**1:15-2:00pm**  Study Feedback MACSF-SOFCOT = surgeons without damage: sharing best practices = Speakers: Valérie Bernard – MACSF prevention of risks expert Bruno Frattini, MACSF prevention of risks expert
CONGRESS OF THE FRENCH SOCIETY OF Orthopedic Surgery and Traumatology

7

MORNING

14:00-17:00 Professional session, followed by SNCO general assembly
15:00-16:30 92nd Congress Inaugural Session
Paul Bonnevialle (Toulouse), President of AOT, and Christian Delaunay (Paris), President of CNP-SOFCOT
16:00-17:30 Symposium: Results at more than 5 years in total knee replacement with and without rotating hinge
Gilles Pasquier (Lille), Gualter Vaz (Lyon), Matthieu Ehlinger (Strasbourg)
16:00-17:30 Case discussion: Traumatology/Tumors

14:00-18:00 Presentations
14:00-15:30 Case discussion: Elbow/shoulder
14:00-15:30 SFHG round table: Avoiding cement in first-line TKA
Chair: Philippe Massin, Pascal-André Vendittoli
14:00-17:30 SFHG round table: Avoiding cement in first-line TKA
Chair: Philippe Massin, Pascal-André Vendittoli
14:00-17:30 Professional session, followed by SNCO general assembly
15:00-16:30 92nd Congress Inaugural Session
Paul Bonnevialle (Toulouse), President of AOT, and Christian Delaunay (Paris), President of CNP-SOFCOT
16:00-17:30 Symposium: Results at more than 5 years in total knee replacement with and without rotating hinge
Gilles Pasquier (Lille), Gualter Vaz (Lyon), Matthieu Ehlinger (Strasbourg)
16:00-17:30 Case discussion: Traumatology/Tumors

8

MORNING

8:00 12:30 Specialty day
• AFCP (French Foot Surgery Association)
• GSF-GETO (French Sarcoma Group/Bone Tumor Study Group)
• GETRAUM (Traumatology Study Group)
• SFCM (French Hand Surgery Association)
• SFCR (French Spine Surgery Association)
• SFHG (French Hip and Knee Society)
• SOFEC (French Shoulder and Elbow Society)

10:30-12:30 Physiotherapists’ program

14:00-17:00 Specialty day (contd)
14:00-17:00 Physiotherapists’ program (contd)
14:00-17:00 Ultrasound workshops

8

AFTERNOON

wednesday}

8

wednesday
**MORNING**

08:00-12:30  
**Presentations**

08:00-12:30  
**Specialist Societies:**
- SOFOP (French Society of Pediatric Orthopedics)
- CAOS (French Society for the Development of Computer-Assisted Surgery in Orthopedics)

08:00-09:30  
**SICOT round table:** Total knee arthroplasty in recent knee fractures, First-line total knee arthroplasty in complex knee fracture
*Hans-Christoph Pape, Sebastien Paratte*

08:00-11:00  
**Ultrasound workshops**

09:30-11:00  
**Round table:** Innovations in day surgery in 2017
*Christophe Hulet (Caen), Jérôme Villeminot (Haguenau)*

10:30-12:00  
**Round table** by the Club Bassin Cotyle: Geriatric pelvic surgery
*Jérôme Tonetti (Grenoble), Jean Lamontagne (Quebec, Canada)*

10:00-13:00  
**Theater nurses’ program**

11:00-12:30  
**Case discussion:** Hip

12:30-13:30  
**CNP-SOFCOT and AOT general assemblies**

**AFTERNOON**

14:00-15:30  
**Symposium:** Minimally invasive surgery and arthroscopy in osteoarticular traumatology,
*Thomas Bauer (Boulogne), Matthieu Ehlinger (Strasbourg), Christophe Mathoulin (Paris)*

14:00-16:00  
**Specialty societies (contd): SOFOP**

14:00-17:30  
**Presentations**

14:00-15:30  
**Case discussion:** Spine

15:50-16:00  
**Prize-giving**

16:00-17:00  
**Round table:** Biologic reconstruction after bone tumor resection in children and young adults,
*Christophe Glorion (Paris), Jérôme Sales de Gauzy (Toulouse)*

16:00-17:00  
**Theater nurses’ program** (contd)
